UNITED STATES DEPARTMENT OF AGRICULTURE  
OFFICE OF GOVERNMENTAL AND PUBLIC AFFAIRS

MARCH 1978

## PUBLICATIONS RECEIVED DURING JANUARY-FEBRUARY

### BULLETIN OF THE MONTH

#### **Beef and veal in family meals: A guide for consumers** **Home and Garden Bulletin No. 118**

This slightly revised bulletin provides consumers with the results of valuable research on the buying, storing, and cooking of beef and veal. Also given are up-to-date directions and recipes for cooking beef and veal.

**NOTE:** Single copies of publications other than those listed **FOR SALE ONLY** may be obtained free as long as the supply permits from the Office of Governmental and Public Affairs, U.S. Department of Agriculture, Washington, D.C. 20250. Prices are given for the convenience of persons desiring to purchase these publications in quantities and for those who make frequent purchases of government publications. Remittances should be sent to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, except as otherwise noted.

#### **FARMERS' BULLETINS**

##### **Growing American bunch grapes.** (F 2123) 26 p. 40c.

Bunch grapes are one of the most popular and extensively grown fruits in home plantings. They are easy to grow, bear regularly, and are small but long-lived plants. Included in this slight revision are descriptions of the principal varieties and instructions for propagation, preparing the land for the vineyard, planting the stock, erecting trellises, training and pruning, cultivating and controlling weeds, insects, and disease.

##### **Growing cherries east of the Rocky Mountains.** (F 2185) 30 p. 50¢.

This revised bulletin describes the kinds

and varieties of cherries grown east of the Rocky Mountains. It discusses the location of important cherry growing areas, selection of orchard sites, choice of stocks, selection and planting of trees. The bulletin also provides information on the proper use of pesticides.

##### **Selecting and operating beekeeping equipment.** (F 2204) 24 p. 40¢.

This slightly revised bulletin describes the equipment necessary for efficient and profitable production of bulk honey and tells how to operate the equipment. It also gives suggestions on planning a honey house.

##### **Plumbing for the home and farmstead.** (F 2213) 20 p. 35¢.

This slightly revised bulletin deals primarily with the installation of plumbing in new construction, but the general principles apply when adding or remodeling plumbing fixtures and piping and related equipment.

##### **Raising a small flock of sheep.** (F 2222) 12 p. 70¢.

This revised leaflet gives basic information on how to begin sheep raising. Especially prepared for families in Appalachia, the information, however, can be used almost anywhere in the United States. Many suggestions are given that will produce two healthy crops a year—lambs and wool—as well as meat for the family.

**Home heating, systems—fuels—controls.** (F 2235) 24 p. 45¢.

This slightly revised bulletin describes the types of heating units and systems available for heating the home. It also compares costs of operation for various types of units, and tells how to reduce heating requirements.

**Preventing and controlling internal parasites of hogs.** (F 2240) 36 p. \$1.30.

Internal parasites continue to be a major problem of hog producers. This revised bulletin briefly describes and discusses the common parasites in hogs. It illustrates infestations of parasites in internal organs of hogs and also shows life cycles of common parasites.

## **HOME AND GARDEN BULLETINS**

**Growing the flowering dogwood.** (G 88) 8 p. 35¢.

The major portion of this slight revision is devoted to the planting, care, and diseases of flowering dogwood and the insects that attack it. Specific information is given on several aspects of the care of the plant, such as mulching, weeding, fertilizing, and pruning. Although few diseases affect dogwood, trunk canker, trunk decay, leaf decay, leaf and flower spots, and twig dieback are discussed.

**Beef and veal in family meals: A guide for consumers.** (G 118) 38 p. 50¢.

See Bulletin of the Month

**Growing boxwoods.** (G 120) 16 p. 80¢.

In this slight revision stress is placed on soil selection and preparation. What to do after planting is discussed in sections on watering, pruning, fertilizing, and transplanting. Diseases of boxwoods are identified, and the treatment or control of various insects and pests that attack boxwood is discussed at length.

**Making cottage cheese at home.** (G 129) 9 p. 35¢.

A slight revision which provides home-makers with simple information on how to make both large and small-curd cottage cheese from skim milk or reconstituted non-fat dry milk.

**Apples in appealing ways.** (G 161) 20 p. 35¢.

This revised publication gives suggestions for buying, storing, and preparing apples. It also gives recipes for using apples in a variety of ways.

**How to buy canned and frozen fruits.** (G 191) 23 p. 50¢.

This slight revision introduces the consumer to the convenience and quality aspects of canned and frozen fruits. It tells the consumer about grade standards, labels, sizes and servings, and storage.

## **LEAFLETS**

**What to do do when your home freezer stops.** (L 321) Folder 35c.

This slightly revised leaflet tells what to do about the freezer as well as the food inside, how to estimate the time the food will stay frozen, emergency care of the food at a locker plant, use of dry ice, how to insulate

the freezer if dry ice is used, and what to do with food if it thaws.

**Bridge grafting and inarching damaged fruit trees.** (L 508) 8 p. 35¢.

This slightly revised leaflet describes methods for treating fruit trees that have been girdled by rodents, disease, sun-scale, or mechanical injury. Both bridge grafting—for trees injured above ground—and inarching—for trees with badly damaged roots—are described and illustrated. Information on protective coatings for wounds is also included.

**Controlling the brown recluse spider.** (L 556) Folder 60¢.

The brown recluse spider is widely distributed in the United States, and is commonly found around homes and farm buildings. A bite by this spider is usually followed by intense pain. This slightly revised bulletin tells the person who has been bitten what medical attention is needed to prevent severe reactions. The final section discusses the most effective method of control of this spider.

**Firewood for your fireplace, selection, purchase, use.** (L 559) Folder 35¢.

This slightly revised leaflet explains the value of firewood compared to other fuels, where to obtain firewood, how to buy firewood, the kind of wood best suited for burning in a fireplace, how to build a better fire, and how to build a safe fire.

## PUBLICATIONS RECEIVED DURING MAY-JUNE

### BULLETIN OF THE MONTH

#### **Indoor gardening. Artificial lighting, terrariums, hanging baskets, and plant selection.** Home and Garden Bulletin No. 220

This new publication describes different types of indoor gardens for displaying decorative house plants and includes plans for constructing them. It discusses systems for lighting indoor plants, the best place to put an indoor garden, points to consider in selecting decorative plants and how to care for them. A special gardening section discusses terrariums, hanging baskets, plants for the beginner, and air layering.

**NOTE:** Single copies of publications other than those listed **FOR SALE ONLY** may be obtained free as long as the supply permits from the Office of Governmental and Public Affairs, U.S. Department of Agriculture, Washington, D.C. 20250. Prices are given for the convenience of persons desiring to purchase these publications in quantities and for those who make frequent purchases of government publications. Remittances should be sent to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, except as otherwise noted.

### FARMERS' BULLETINS

#### **Establishing & managing young apple orchards.** (F-1897) 26 p.

Since their average lifespan is 40 years or less, commercial apple orchards must be systematically renewed to provide good fruit. This slightly revised bulletin explains how to establish and manage young orchards through proper (1) selection of sites, (2) planning and planting, (3) soil management, (4) training and pruning, and (5) control of weeds, insects, and disease.

### HOME AND GARDEN BULLETINS

#### **Growing flowering crabapples.** (G 135) 11 p. 35¢.

This revised bulletin describes 19 commonly grown varieties of flowering crabapples. It tells how to plant and care for the trees and describes diseases and insects that sometimes attack crabapples.

#### **Insects on trees and shrubs around the home.** (G 214) 51 p.

This new bulletin has been prepared especially for homeowners. It tells how to recognize and control the more common insects and mites that attack trees and shrubs in widespread areas of the United States. It also tells how to recognize beneficial insects. The homeowner will find that the insecticides recommended for control are, with few exceptions, readily available and provide a wide range of uses. The sprays are easy to prepare. If directions are followed, they can be used safely.

#### **Indoor gardening. Artificial lighting, terrariums, hanging baskets, and plant selection.** (G 220) 47 p. \$1.50. See Bulletin of the Month

UNITED STATES DEPARTMENT OF AGRICULTURE  
OFFICE OF GOVERNMENTAL AND PUBLIC AFFAIRS

SEPTEMBER 1978

**PUBLICATIONS RECEIVED DURING JULY-AUGUST**

**BULLETIN OF THE MONTH**

**Selecting and growing shade trees  
Home and Garden Bulletin No. 205**

Directed to homeowners, this slightly revised publication gives information about shade trees that are suitable for home planting in the continental United States, excluding Alaska. It discusses the characteristics of deciduous and evergreen trees, and explains in some detail how to plant and care for them.

**NOTE:** Single copies of publications other than those listed FOR SALE ONLY may be obtained free as long as the supply permits from the Office of Governmental and Public Affairs, U.S. Department of Agriculture, Washington, D.C. 20250. Prices are given for the convenience of persons desiring to purchase these publications in quantities and for those who make frequent purchases of government publications. Remittances should be sent to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, except as otherwise noted.

**FARMERS' BULLETINS**

**Lightning protection for the farm.** (F 2136) 18 p. 35¢.

This slight revision discusses the importance of installing lightning-protection systems on major farm buildings. Also discussed is protection for livestock, protection for trees, grounding wire fences, inspection and maintenance, and personal safety.

**Growing ginseng.** (F 2201) 8 p. 35¢.

This revised bulletin describes American ginseng. It also discusses adaptation of plants to cultivation, culture, propagation, harvesting, and market value.

**Growing cauliflower and broccoli.** (F 2239) 15 p.

This revision describes the varieties of cauliflower and broccoli and tells how to produce a successful crop. It explains procedures for planting, fertilizing, harvesting and packing these vegetables. Information on insects and diseases which attack cauliflower and broccoli is also included.

**HOME AND GARDEN BULLETINS**

**Better lawns, establishment, maintenance, renovation, lawn problems, grasses.** (G 51) 36 p. 50¢.

This revised publication tells how the non-expert can adhere to sound establishment and maintenance practices pertaining to the construction of a lawn. You have to consider how it is graded and drained, and how the seedbed is prepared. Maintenance of a lawn by fertilizing, mowing, watering, controlling weeds, diseases and insects is also discussed. It gives instructions on how to select grasses and when and how to plant them.

**Growing tomatoes in the home garden.** (G 180) 14 p. 50¢.

This slight revision tells how to choose tomato varieties; suggests best time and location for planting seeds or seedlings; and gives directions for seeding, transplanting, care, and harvesting of tomatoes.

**Growing vegetables in the home garden.** (G 202) 49 p. \$1.75.

A slight revision which describes the kinds of vegetables commonly grown in home gardens. The bulletin discusses soil preparation and planting, garden tools, and care of the garden. Also included is information on organic gardening, a list of State Agricultural Experiment Stations, and a list of vegetable seedsmen.

**Selecting and growing shade trees.** (G 205) 20 p. 35¢.

See Bulletin of the Month

**LEAFLETS**

**Chicken lice: How to control them.** (L 474) Folder. 35¢.

This revised Leaflet provides useful information on chicken lice. Graphic portrayals show kinds of lice and their development, how to control them, and methods of treating the birds with spray or dust insecticides.

**Growing black walnuts for home use.** (L 525) 9 p. 35¢.

This slightly revised Leaflet advises readers, how to grow black walnuts for home use, how to plant trees of improved varieties, why one should plant them in early spring in fertile and well-drained soils, how to provide them with sufficient moisture and nutrients, and how to control diseases and insect pests of the trees. Also included in the discussion are instructions for harvesting the nuts.

**A dairy goat for home milk production.** (L 538) 8 p. 60¢.

This revised Leaflet gives basic information on how to keep a dairy goat with minimum cash outlay. It includes help on selecting a doe; feed and pasture; housing, tethering, and fencing; care of milk; and breeding and reproduction. Cost figures are also given.

**Pesticides and honey bees.** (L 563) 7 p. 70¢.

Honey bees produce honey and beeswax valued at \$100 million annually. The farmer and the beekeeper are dependent upon each other. By observing precautions recommended in this slight revision, one can greatly reduce bee losses from pesticide poisoning.

 National Audiovisual Center  
 Washington, D.C. 20409

**"Killer Bees"-Fact or Fantasy.** 14 min., color, 16mm. Suitable for audiences of all ages. Cleared for television. 1978

The film focuses on a major USDA-funded research project in French Guiana where a team of scientists is studying the behavior and life cycle of these energetic honey gatherers. Related research on bees in Louisiana and California is also presented along with a visit to a queen-rearing operation in Florida.

This film offers a calm and factual view of the so-called "killer bee." It is ideally suited for classrooms, civic groups, and television programming.

OFFICE OF GOVERNMENTAL AND PUBLIC AFFAIRS

NOVEMBER 1978

## PUBLICATIONS RECEIVED DURING SEPTEMBER-OCTOBER

### BULLETIN OF THE MONTH

#### Pork slaughtering, cutting, preserving, and cooking on the farm Farmers' Bulletin No. 2265

Detailed instructions for slaughtering, cutting, and processing pork on the farm are given in this illustrated, how-to-do bulletin. The discussion of slaughtering includes information on equipment, type of hog to slaughter, and care of hogs before slaughter. Freezing, curing, canning, lard rendering, and preparing sausage are the processing methods discussed.

**NOTE:** Single copies of publications other than those listed **FOR SALE ONLY** may be obtained free as long as the supply permits from the Office of Governmental and Public Affairs, U.S. Department of Agriculture, Washington, D.C. 20250. Prices are given for the convenience of persons desiring to purchase these publications in quantities and for those who make frequent purchases of government publications. Remittances should be sent to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, except as otherwise noted.

#### FARMERS' BULLETINS

Feedlot and ranch equipment for beef cattle. (F 1584) 20 p. \$1.20.

Equipment and housing important to beef cattle operations, including sheds, shade shelters, windbreaks, back rubbers, cattle guards, silos, feeders, hay racks, water tanks, corrals, scales, and chutes are described and illustrated in this slight revision. The bulletin tells stockmen how animal handling facilities may be designed and constructed for strength, durability, and safety.

Roofing farm buildings. (F 2170) 28 p. 45¢.

This slight revision describes the various types of roofing materials available for farm

buildings and tells how to select, install, and repair these materials.

Sugarbeet insects: How to control them. (F 2219) 22 p. 35¢.

This slight revision describes the insects that attack sugarbeets and the parts of the plant they injure, and gives suggestions for both cultural and chemical control. It includes a guide to selection and use of insecticides as well as a section on beneficial insects.

Sudangrass and sorghum-sudangrass hybrids for forage. (F 2241) 12 p. 80¢.

This revision describes the physical characteristics of three varieties of sudangrass, and gives information on soil preparation and planting. It discusses the control of weeds, insects, and diseases that attack the grass. Sudangrass and sorghum-sudangrass hybrids produce an abundance of high-quality forage for both dairy and beef cows and sheep.

Housing and equipment for sheep. (F 2242) 14 p.

This revised bulletin describes housing and equipment needed to raise a flock of sheep. Working drawings for most of the equipment are available. Feeding equipment includes self-feeders, troughs, racks, mineral feeders, water troughs, and feedlots.

Pork slaughtering, cutting, preserving, and cooking on the farm. (F 2265) 65 p. \$2.10. See Bulletin of the Month

## HOME AND GARDEN BULLETINS

Nutrition, food at work for you. (GS 1) 25 p.

This slightly revised bulletin gives the homemaker, or meal planner, information about the importance and value of good nutrition.

Cabbage insects: How to control them in the home garden. (G 44) 8 p. 60¢.

This revision is valuable to growers of cabbage plants such as broccoli, cauliflower, kale, brussel sprouts, collards and kohlrabi. It discusses kinds of cabbage insects most commonly found, dividing them into two classes. A chart showing kinds of insecticides, and amount to use, and the methods of application are included. Types of applicators to use and precautions and other control measures are described.

Growing ornamental bamboo. (G 76) 11 p. 80¢.

This revised bulletin discusses the selection, planting, propagation, and care of ornamental bamboo. The many species of bamboo that are suitable for ornamental purposes are discussed. Because running bamboo spreads rapidly, instructions are given on how to control the rhizomes and how to eradicate undesirable plantings.

Making pickles and relishes at home. (G 92) 33 p. \$1.15.

This revised bulletin gives specific directions for selecting and preparing pickling ingredients and for processing pickles and relishes. Included are basic recipes for the old-time favorites, such as pickled peaches, piccalilli, and sauerkraut; and the newer fresh-pack or quick-process dills, sweet gherkins, crosscut pickle slices, and dilled green beans.

Be safe from insects in recreation areas. (G 200) 8 p. 60¢.

This slightly revised bulletin describes how to protect yourself from insects in recreational areas, and includes discussions on repellents, space sprays, use of pesticides, and alternative methods of protection.

## LEAFLETS

Firewood for your fireplace, selection, purchase, use. (L 559) 8 p. 50¢.

This slightly revised publication explains the value of firewood; where to obtain firewood; the kind of wood best suited for burning in a fireplace; how to build a better fire; and how to build a safe fire.

**Coaching on the job.** 1964. 25 min. 16mm film, optical sd, col.

Approximately 80 percent of Forest Service training is done on the job. This film explains the importance of training in typical on-the-job sequences in the field.

**Direct seeding of Southern pine.** 1965. 20 min. 16mm film, optical sd, col.

Research leading to the successful seeding of Southern timberlands is fascinating. At first, birds and rodents ate the seeds, methods of seeding were crude, but important breakthroughs in research solved these problems.

**Forest in a museum.** 1962. 11 min. 16mm film, optical sd, col.

Features the 1-1/4 acre 'Beaver National Forest' Exposition Ranch Museum in New Mexico. Tells the story of multiple use through small-scale models of animals, people, and fire tower, with real trees, grass and water. Living animals and birds on exhibit at the Museum are shown also.

**Islands of Green.** 1965. 24 min. 16mm film, optical sd, col.

Sixty years ago, conservationists set aside the National Forests as large islands of green for the American people. Today, increasing pressure for outdoor recreation and conservation education have created a need for small islands of green near urban communities. The National Audubon Society is prepared to assist any community in a plan for a nature conservation center.

#### Painting: Inside and Out Home and Garden Bulletin No. 222

This new bulletin gives the reader specific instructions on the preparation of metal, wood, plaster, and masonry surfaces before painting. It describes in detail the kinds of paints to be used for painting barn walls, wood siding, masonry, galvanized iron, aluminum, windows, shutters, and doors. Information on equipment, estimating quantity, when to paint the interior and exterior, how to paint the interior and the exterior, and whitewashing is also included.

**NOTE:** Single copies of publications other than those listed **FOR SALE ONLY** may be obtained free as long as the supply permits from the Office of Governmental and Public Affairs, U.S. Department of Agriculture, Washington, D.C. 20250. Prices are given for the convenience of persons desiring to purchase these publications in quantities and for those who make frequent purchases of government publications. Remittances should be sent to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, except as otherwise noted.

### FARMERS' BULLETINS

**Poison ivy, poison oak and poison sumac.** (F 1972) 16 p. 35¢.

This slightly revised bulletin discusses the various kinds of poison ivy, poison oak, and poison sumac; precautions against and treatment for these poisons; and ways to eradicate the plants.

**Fire resistant construction of the home . . . of farm buildings.** (F 2227) 18 p. 35¢.

This slight revision discusses the importance of fire-resistant construction of the home and farm buildings and indicates the type of materials to use and the methods of construction.

**Water supply sources for the farmstead and rural home.** (F 2237) 18 p. 35¢.

This slight revision discusses the possible sources of water for developing a water supply for a farmstead or rural home. Emphasis is placed on wells—the preferred source of water.

**Commercial blueberry growing.** (F 2254) 33 p. \$1.50.

This revised bulletin discusses the important varieties of blueberries and the culture of rabbiteye and high bush varieties. Soil and climate requirements, propagation, mulching, and pruning are among the items discussed. Also included are sections on how to control pests and descriptions of diseases that attack the blueberry plant.

**Identification and control of honey bee diseases. (F 2255) 18 p. \$1.00.**

This slightly revised bulletin describes the common bee diseases present throughout the United States, and offers recommendations for preventing and controlling the spread of these diseases. Special sections tell the reader how and where to send dead bees or diseased samples of the comb for diagnosis, and how to compare characteristics of various brood diseases of honey bees.

**HOME AND GARDEN BULLETINS**

**Family fare: A guide to good nutrition. (G 1) 91 p. \$2.10.**

Whether you are just learning the skills of food management and good cooking or are an experienced hand in the kitchen, this booklet can serve you well. This slight revision combines good eating and good nutrition. It packs the results of years of food and nutrition research into a ready handbook for everyday use, then translates this knowledge into taste-tested recipes and well-balanced meals.

**Insects and related pests of house plants . . . how to control them. (G 67) 14 p. \$1.00.**

This slightly revised bulletin tells how to recognize and control the most common insects and related pests that attack plants in homes and home greenhouses in the United States. Instructions for preparing and applying insecticidal sprays and dips are included.

**Nutritive value of foods. (G 72) 40 p. \$1.80.**

A table of nutritive values for household measures of commonly used foods makes up the greater part of this slightly revised bulletin. This table shows the food values in 730 commonly used foods. Most foods listed are in ready-to-eat form and the weight in grams is shown for an approximate measure of each food.

**Summer flowering bulbs. (G 151) 16 p. 35¢.**

Describes the various kinds of summer flowering bulbs; discusses how to select, plant, and care for bulbs, and how to grow bulbs indoors.

**Keeping food safe to eat—A guide for homemakers. (G 162) 10 p. 35¢.**

This slightly revised bulletin gives information on storing, preparing, cooking, freezing, and canning food that will help safeguard against food infections and production of toxins that cause illness.

**Minigardens for vegetables. (G 163) 12 p. 35¢.**

All you need to start a minigarden is a windowsill, a balcony, or a door-

step. This slightly revised bulletin describes the basic materials required. The bulletin discusses various cultural practices.

**Selecting and financing a home. (G 182) 24 p. \$1.10.**

This bulletin provides information to help families select and finance a home that will fit their needs, goals, and income. It discusses renting versus buying, shopping for a home and neighborhood, types and costs of mortgage loans, and fitting housing costs into a budget.

**Painting, inside and out. (G 222) 26 p. \$1.30.**

**See Bulletin of the Month**

**LEAFLETS**

**How to control bed bugs. (L 453) 7 p. 35¢.**

Bed bug appearance, habits, and hiding places are described in this slightly revised leaflet. Directions are given for controlling the bugs in homes and in animal laboratories and poultry houses. Detailed information on the kinds of insecticides to use and how to mix and apply sprays is included.

**Hog castration. (L 473) 6 p. 35¢.**

This slightly revised leaflet gives detailed instructions on how to perform the operation, including the best time to castrate and methods of restraining swine that are to be castrated.
